### EXPERIENCE

**Software Engineer 1** | CarePal Secure

December 2022 – Present

- Leveraged React components, JSX, and Virtual DOM for highly responsive interfaces.
- Collaborated with cutting-edge technologies, such as new-generation generative AI tools like ChatGPT and Co-Pilot, to boost productivity and streamline development processes, ensuring continuous innovation in frontend development practices.
- Implemented Lifecycle Methods, Hooks, and Router for dynamic user experiences.
- Integrated APIs for dynamic data retrieval and employing Redux for state management.
- Styled components for elegant UI designs while ensuring cross-browser compatibility.
- Prioritized UI/UX design, error handling, and performance optimization.
- Utilized Webpack, Babel, and Git/GitHub for efficient development workflows.

**Frontend Developer Intern** | Impactguru

September 2022 – December 2022

- Developed responsive web pages and critical UI components, prioritizing user experiences.
- Enhanced page loading time by 50% and collaborated with data analysts for valuable insights.
- Applied optimization techniques, security best practices, and progressive enhancement.
- Addressed bug fixes and consistently improved user interfaces with a focus on code splitting.
- Proficient in utilizing debugging tools for issue identification and resolution.

**Junior Associate Web Developer** | Nestable

March 2022 – June 2022

- Developed layouts, flowcharts, and documentation to identify requirements.
- Wrote well-designed, clean, and testable code with a focus on React applications.
- Collaborated on asynchronous Mobile Apps, versioning, and maintaining software functionality.
- Deployed programs and evaluated user feedback for mobile suites.
- Maximized software functionality through debugging, troubleshooting, and optimization.

### EDUCATION

University of Mumbai  
MSBTE

**BSc in Informatio Technology** | CGPA : 8.0  
**Diploma in Computer Engineering** | Percentage : 65.25

August 2019 – January 2022
